Note – Consolidated Income Statement

Sales of Properties

- 2009-2010 were the periods where IFC was under construction. Substantial portion of other projects prior to IFC, such as Future International mall was held for capital appreciation and recurring income, thus it had resulted in lower sales in earlier periods
- The sales recognition of IFC office only started from 4Q2011 onwards

RMB	4Q 2011 (restated)	FY2011	4Q 2012	FY2012
IFC office sales	386,547,640	386,547,640	104,879,300	402,623,290
Non-IFC related sales	91,705,522	160,543,522	26,810,700	98,558,710
Total Sale of Properties	478,253,162	547,091,162	131,690,000	501,182,000

Gross Profit Margin

- As the majority of the projects completed earlier were revalued to market value, it has resulted in lower GP margin in the period when we sell these properties

	4Q 2012	FY2012
Reported Gross Profit Margin	43.5%	43.9%
Scenario analysis – GP margin if there were no prior revaluation on the earlier projects	51.2%	48.1%

* Net Gearing Ratio	54.5%	55.4%

* The increase in net gearing ratio was mainly due to the draw down of construction loans with SCB and OCBC for Ying Li International Plaza. As the delivery of Ying Li International Plaza project will be in phases from 2013-2014, none of the pre-sales and profit has been recognised.
