In line with the Group's announcement made on 14 May 2012 with respect to the 2Q 2012 results announcement, the Directors expect the Group to remain profitable in FY 2012.

**10 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

Chongqing's economy continues its robust GDP growth during the first half of 2012. According to the latest figures released by the Chongqing Statistics Bureau and National Statistics Bureau, Chongqing achieved a nominal GDP of RMB 530.7billion, an increase of 14.0% year-on-year and 6.4 percentage points higher than the national average level of 7.6%. This strong growth rate places Chongqing second at the national level and fastest growing city in Western China.

Chinese Central Government reaffirmed their position on maintaining stable economic growth by adhering to proactive fiscal policy and prudent monetary policy. On 7th June 2012, the People's Bank of China (PBOC) trimmed 25 basis points off both its benchmark lending and deposit rates to 6.31% and 3.25% respectively, followed by another 31 and 25 basis points off its lending and deposit rates to 6.00% and 3.00% respectively on 5th July 2012.

In addition, the Chinese Central Government has maintained its policies of expanding domestic demand and consumption, strengthening the non-public sector, as well as accelerating reforms in other key sectors. On 8th June 2012, the Chongqing Municipal Government held a General Assembly on the development of Chongqing private enterprises, where Vice Premier of the State Council, Chongqing Municipal Party Secretary Zhang Dejiang delivered a speech pointing out the importance and need to promote rapid development of Chongqing's private enterprises, as well as to create a favourable environment for the growth of the private enterprises.

The Chinese Central Government continues to show strong support for Chongqing's growth after the reshuffling of the municipal party secretary. A delegation team of more than thirty centrally-administrated state-owned enterprises, including China National Petroleum Corporation, Sinopec Group and China Mobile, has signed 72 contracts worth than RMB 350billion with the Chongqing municipal government to invest in sectors such as energy and hi-tech industry over a period.

Chongqing municipal government insistence with its stance on opening-up policy coupled with the city's friendly investment environment has also given investors a boost in confidence. In the recent concluded 15th Chongqing International Investment and Global Sourcing Fair hosted by the People's Republic of China Ministry of Commerce, a key platform for China western region to participate with economic and international trade co-operation, 216 of Fortune 500 companies signed more than 382 domestic and foreign projects to invest in advanced manufacturing, services, real estate, infrastructure and green energy industries.

The Group remains optimistic on the outlook for Chongqing's commercial real estate sector. According to the latest DTZ Chongqing property report, Chongqing's grade A office market continues to benefit from the continuous economic development and improvement in the infrastructure of Liangjiang New Area. The demand for high-quality grade A office spaces has pushed up both selling prices and rental rates significantly. The average office rental rate in Yuzhong District climbed 20.49% q-o-q to RMB 101.23 psm per month, partially driven up by the higher rental at Ying Li IFC office.

The Chinese retail market also showed strength amid the uncertainty as quoted from Business Monitor International China Real Estate Report Q3 2012. In Jones Lang LaSalle latest report, Chongqing retail mall rental rate increased 1.8% q-o-q as vacancy rate decreased 1.1 percentage points q-o-q to 8.6%.

Given that the Group focuses on development of commercial properties, the Group believes it will continue to benefit from these positive trends.

Barring any unforeseen circumstances, the Directors expect the Group to remain profitable in 2012.
