STATEMENT OF COMPREHENSIVE INCOME

Due to the nature of the industry that the Company operates in, recognition of revenue from the sale of properties is driven by project hand-over. Consequently, quarterly results may not be a good indication of profitability trend.

Revenue	Group

For the nine months and quarter ended 30 September 2013

Revenue of the Group for 3Q2013 decreased by RMB131.9 million (82.4%) to RMB28.2 million as compared with 3QFY2012. For the nine months ended 30 Sep 2013, revenue was RMB205.3 million lower compared to 2012. The decreases were mainly attributable to lower revenue from the Sale of Properties segment which is attributable to the following factors:

- we are unable to recognise revenue from sales of the Ying Li International Plaza as the project is not completed yet; and
- we had fewer properties being available for sale as the bulk of our completed projects were sold in prior periods. The profile of booked property sales being experienced is common with an initial surge, a more constant streaming and as the number of units available declines, sales start tapering off;

Rental income of the Group increased by RMB4.9 million (a 21.3% increase) to RMB28.2 million compared to 3QFY2012. The increase is primarily due to more IFC office space being leased out as compared with the same period in 2012. Rental revenue also increased by RMB25.2 million (44.3%) for the nine months ended 30 September 2013 due to increased leasing income as the IFC mall is in its second year of operations as well as the increased rental from IFC office space as mentioned above.

Gross profit of the Group for 3Q2013 decreased by RMB32.2 million (59.2%) to RMB22.2 million as compared with the same period last year which was due to:

- No gross profit from the Sale of Properties segment for 3Q2013 due to reasons mentioned earlier under the Revenue section; and
- In spite of a rise in gross profit from rental income for 3Q2013 by RMB3.7 million (a 20.1% increase) to RMB22.2 million mainly due to the IFC mall in its second year of operations.

Selling expenses

During the quarter under review, selling expenses was RMB4.9 million (37.0%) lower than in 3Q2012 mainly due to a decrease in advertising and promotion expenses during the quarter. The higher advertising and promotion expense incurred in the same quarter in FY2012 was due to the launch of the sales for Block 3 of the Ying Li International Plaza project. For the nine months ended 30 September 2013, selling expenses was also RMB9.1 million lower year-on-year due to the absence of the initial operating expenses such as renovation, utilities and staff recruitment and training cost that was associated with the opening of the IFC mall (in late 2011).

Administrative expenses

For the quarter under review, Administrative expenses – Normal recurring was RMB2.0 million (an 18.9% increase) higher than 3Q2012 mainly due to administrative fees paid to a financial institution for a loan facility.

For the nine months ended 30 September 2013, Administrative expenses – Normal recurring increased by RMB25.1 million year-on-year due to the following:

- i. administrative fees paid to a financial institution for a loan facility amounting to RMB15.2 million; and
- ii. increase in translation losses amounting to RMB9.1 million

Finance costs

For the quarter under review and for the nine months ended 30 September 2013, finance expense increased by RMB24.5 million and RMB45.1 million respectively. The higher interest expense was due to the accounting treatment for interest. Prior to the IFC project being completed (end 2012), most of the interest expense was capitalized. Now that the construction of the IFC is completed, all the interest is expensed off in the profit & loss statement.

Largely and as a result of no the inability to recognize sales from the Ying Li International Plaza project and no sales recorded elsewhere, the Group recorded a loss in 3Q2013.

STATEMENT OF FINANCIAL POSITION

Total Assets of the Group increased by RMB636.7 million to RMB8,011.8 million from 31 December 2012 to 30 September 2013. The increase in assets was mainly due to the increase in development properties as progress is being made on both Ying Li International Plaza and Chongqing Financial Street projects. Trade and other receivables decreased by RMB128.5 million due to receipt of the balance amounts from the sales of Ying Li International Plaza.

The Group's total liabilities increased by RMB668.3 million to RMB4,810.1 million during the period under review. The increase in liabilities was mainly due to: (i) increase in trade and other payables due to advance payments received from the pre-sales of residential units at Ying Li International Plaza; and (ii) increase in bank borrowings during the period under review.

The Group's total equity decreased by RMB31.6 million to RMB3,201.7 million during the period under review. The net decrease was due to i) the redemption of the Convertible Bond in March 2013 and ii) loss attributable to owners recorded for the current quarter under review.

STATEMENT OF CASH FLOW

The increase in cash and cash equivalent of RMB18.8 million for the quarter under review was mainly due to:

- (i) net cash outflow of RMB424.8 million from operating activities; and
- (ii) net cash inflow of RMB443.6 million from investing and financing activities.

The net cash used in operating activities of RMB424.8 million included i) RMB348.3 million development costs incurred mainly on Ying Li International Plaza and Ying Li Financial Street Project; ii) interest and income tax payments amounting to RMB58.8 million; iii) a RMB179.5 million decrease in trade and other receivables mainly due to receipt of balance amounts from the sales of Ying Li International Plaza project. This is off-set by an increase in trade and other payables of RMB203.2 million which was mainly due to advance payments received from the pre-sales at Ying Li International Plaza.

The net cash inflow from financing activities of RMB443.9 million is mainly due to i) drawdown of borrowing for the development cost of Ying Li International Plaza and Ying Li Financial Street project amounting to RMB858.1 million and ii) repayment of loans amounting to RMB414.1 million

Macroeconomic Updates

Chongqing's economy continues its robust GDP growth in first three quarters of 2013. According to the latest figures released by the Chongqing Statistics Bureau and the National Bureau of Statistics, Chongqing achieved a nominal GDP of RMB863.7 billion in the first three quarters of 2013, an increase of 12.4% year-on-year ("y-o-y") and 4.6 percentage points higher than the national average level of 7.8%. This strong growth rate places Chongqing as one of the top three fastest growing cities at the national level. Total retail sales achieved a 13.5% increase y-o-y to RMB327.9 billion. Total import and export valued accelerated 17.5% y-o-y to US\$47.4 billion.

Chongqing Office Market

"Since no new offices was launched in 3Q 2013, the market continue to absorb existing stock, pushing the net absorption rate up 46.67% q-o-q to 11,392 sqm. Led by strong demand from the financial companies, this drove overall vacancy rate down 2.68 percentage points q-o-q to 22.26%. On the average, Chongqing Grade A office rental remain stable at RMB 94.68 per sqm per month. Yuzhong district continue to command the highest rental rate of RMB 98.76 per sqm per month. In the next three years, there will approximately be two million sqm supply of office spaces entering the market, with more than 50% of the new supply emerging in Jiefangbei and Jiangbeizui CBD."

(Source: DTZ 3Q 2013)

"Due to the delayed launch of two new projects, Chongqing office vacancy rate dropped 2.0 percentage points q-o-q to 24.6% and average rental rate increased marginally by 0.7% q-o-q to RMB 92.1 per sqm per month. Approximately 280,000 sqm of new office supply will enter the market in 4Q 2013. Going forward, future supply will concentrate mainly in Jiangbeizui, Jiefangbei and Hualongqiao. With higher quality projects entering the market, demand and desire to upgrade (mainly companies from the trade and financial industries) are expected to remain strong. Despite qualities of new supply exceeding those of existing projects, rental rates will grow at a slower pace due to intense market competition."

(Source: Jones Lang LaSalle 3Q 2013)

Chongqing Retail Mall Market

"With the delivery of a newly developed mall, overall vacancy rate increased 0.4 percentage points to 5.2%. As a number of shopping malls recently completed their tenant adjustments, the leasing market was kept relatively quiet during the quarter. Prime retail ground level rental rate edged up by 0.6% q-o-q to RMB 23.2 per sqm per day. Judging from current construction progress and preleasing status, only two projects are expected to be delivered in 4Q 2013 while the rest postpone their delivery into 2014. As such, increased in vacancy rate and limit on rental growth shall be observed over the next few quarters."

(Source: CBRE 3Q 2013)

“At present, Chongqing retail market has limited presence of international brands. In line with the emergence of increasing high quality retail properties, many international brands will establish their presence or expand further in Chongqing. Over 250,000sqm of new retail space will be delivered in 4Q 2013 with about 140,000sqm and 130,000sqm coming into traditional and emerging submarket respectively. In view of intense competition, many existing projects have begun upgrading their tenant mix. On the other hand, future projects have placed their focused on positioning, design and leasing. Leveraging on the large population base, continuing income growth and rapid urbanization, retailers is expected to maintain their current expansion momentum.”

Given that the Group focuses on development of integrated properties in Chongqing, particularly in the Yuzhong district, the Group believes it will continue to benefit from the strong fundamentals and rapid urbanisation of Chongqing.
