<sup>\*</sup> Diluted earnings per ordinary share have not been computed as it is anti-dilutive.

Earnings per ordinary share equals to the Group's profit for the financial periods attributable to the shareholders of the Company divided by the weighted average number of ordinary shares issued during the period under review.

Diluted earnings per ordinary share is calculated based on the similar basis as the earnings per share, except that the weighted average number of ordinary shares outstanding are adjusted for the effects of all dilutive potential ordinary shares. The Company has three categories of dilutive potential ordinary shares: share options granted under the Ying Li ESOS, conditional performance shares granted under the Ying Li PSP and perpetual convertible securities.

Share options under the Ying Li ESOS are anti-dilutive as the average market price of ordinary shares during the period exceeds the exercise price of the options.

Performance shares under the Ying Li PSP are treated as contingently issuable shares because their issue is contingent upon satisfying specified conditions in addition to the passage of time. Contingently issuable shares are treated as outstanding and included in the calculation of diluted earnings per share if the conditions are satisfied (i.e. the events have occurred).

The Perpetual Convertible Securities is anti-dilutive as its interest per ordinary share obtainable on conversion exceeds basic earnings per share.

The following table indicates the profit and share numbers used in the basic and fully diluted basis for earning per share computations:

  - (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
  - (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

#### STATEMENT OF COMPREHENSIVE INCOME

Due to the nature of the industry that the Company operates in, recognition of revenue from the sale of properties is driven by project hand-over. Consequently, quarterly results may not be a good indication of profitability trend.

For the six months and quarter ended 30 June 2016

#### Revenue

Revenue of the Group for 2QFY2016 increased by RMB71.5 million (73.1%) to RMB169.3 million as compared with that of 2QFY2015. The increase was mainly due to higher revenue from the Sale of Properties segment that were mainly derived from the continue handover of residential units at Sa Yan Wan Phase 2.

Rental Income decreased slightly by RMB0.7 million (1.3%) in 2QFY2016 to RMB53 million as compared to the same period last year. The decrease was mainly due to select existing tenants not renewing their leases and rent free periods provided to new tenants at mall and office.

The consultancy income in 2QFY15 were derived from an one-off service agreement where the Group provided project design, cost and quality control, and tax planning services in the Beijing Tongzhou Project.

n.m. - not meaningful

The Group's gross profit margin for 2QFY2016 decreased by 25.8 percentage points to 40.5%. Gross profit margin from Sale of Properties decreased as the units that were handed over in 2QFY2016 mainly comprised residential units at San Ya Wan Phase 2 that tend to have a lower gross profit margin as compared to that of office units at Ying Li International Plaza that were handed over in the same period last year. On the other hand, there was one-off consultancy income in 2QFY2015 which lifted the Group's overall gross profit margin.

#### Other income

		Group

innent grant	927	1,368	1,937	1,637		
	16,255	6,261	30,110	21,179		

The year-on-year increase in Other Income was mainly due to higher interest income from deposits placed with financial institutions and others.

#### **Selling expenses**

Selling expenses increased by RMB7.2 million in 2QFY2016 to RMB18.0 million (66.2%) as compared to 2QFY2015 mainly due to an increase in advertising and promotional activities conducted at the two retail malls designed to increase shoppers' footfall as well as expenses incurred for the preparatory works for a launch event to introduce one of our upcoming project.

#### **Administrative expenses**

During the quarter under review, Administrative expenses were RMB9.7 million (56.5%) higher compared to 2QFY2015. The significant increase in Administrative Expenses was mainly due to an increase in upfront and professional fees incurred due to an increase in the number of new loans drawn down and issuance of bonds in 2QFY2016 compared to 2QFY2015.

Administrative expenses – Share based payment expense decreased by RMB2.6 million (89.0%) as compared to the same period last year due to the revocation of Performance Shares and Share Options in previous financial year.

#### Finance costs

For the quarter under review, finance costs were RMB2.5 million (9%) lower as compared to 2QFY2015. Interest expense directly attributable to projects would generally be capitalised as part of the project costs.

#### **Taxation**

	(6,110)	(3,971)	53.9%	(12,447)	(5,609)	121.9%	

n.m. - not meaningful

During the quarter under review, current income tax expense increased by RMB4.5 million (119.7%) as compared with 2QFY2015 mainly due to an increase in taxable profits generated from the sale of properties in 2QFY2016.

#### Total comprehensive income for the period

Total comprehensive income for the period decreased by RMB20.5 million as compared to 2QFY2015. This is mainly due to unrealised exchange losses arising from the translation of the financial statements of the entities where the functional currency differs from the presentation currency of the Group. The functional currency of the offshore holding companies are denominated in Singapore Dollars ("SGD") while the presentation currency of the Group is denominated in Chinese Yuan ("RMB"). The translation losses arose due to the continuing devaluation of the RMB against SGD during the quarter.

n.m. - not meaningful

Overall, net profit attributable to the ordinary shareholders of the Company decreased by RMB3.9 million to RMB5.0million in 2QFY2016.

# STATEMENT OF FINANCIAL POSITION

Total Assets of the Group increased by RMB107.2 million to RMB12.0 billion during the period under review. The increase in assets was mainly attributable to: i) an increase in development properties amounting to RMB503.6 million as progress is being made on the Ying Li International Commercial Centre, Ying Li International Electrical and Hardware Centre and San Ya Wan Phase 2 projects; ii) an increase in deposits placed with government agencies for land tenders amounting to RMB48.9 million; (iii) an increase in prepayments of RMB50.2 million which was mainly due to prepaid taxes for the pre-sales at the Ying Li Lion City Garden and Ying Li International Electrical and Hardware projects, transfer to sinking funds in accordance with prevailing government regulations upon the handover of the Ying Li Lion City Garden project and loan upfront fees paid to financial institutions; and (iv) increase in refundable deposits of RMB9.4 million arising from deposits paid to a financial institution pursuant to a loan agreement. This was off-set by a decrease in cash and cash equivalents of RMB506.9 million mainly due to the repayment of borrowings.

The Group's total liabilities increased by RMB161.6 million to RMB7.0 billion during the period under review. The increase in liabilities was mainly due to: i) an increase in trade and other payables of RMB454.4 million that was mainly attributable to an increase in pre-sales proceeds received of RMB368.3 million; and an increase in trade payables of RMB96.2 million arising from projects under development. This was off-set by a reduction in borrowings amounting to RMB295.5 million due to repayment of loans.

The Group's total equity decreased by RMB54.3 million to RMB5,028.5 million during the period under review, due to a reduction in Exchange fluctuation reserve because of RMB devaluation in 1HFY2016. The Exchange fluctuation reserve comprises mainly cumulative unrealised exchange gains/losses arising from the translation of the financial statements of the entities where the functional currency differs from the presentation currency which is the Chinese Yuan ("RMB").

#### STATEMENT OF CASH FLOW

The increase in cash and cash equivalent of RMB139.8 million for the quarter under review was mainly due to:

- i) net cash outflow of RMB282.8 million from operating activities;
- ii) net cash outflow of RMB0.2 million from investing activities; and
- iii) net cash intflow of RMB422.7 million from financing activities.

The net cash used in operating activities of RMB282.8 million include cash generated from the operating profit of RMB26.8 million and an increase in trade and other payables of RMB40.1 million. The increase in trade and other payables mainly arose from the pre-sales proceeds received from the on-going sales at the San Ya Wan Phase 2 and IEC project. This was off-set by i) a increase in trade and other receivables of RMB86.5 million mainly due to deposits paid for land tender; ii) increase in development costs amounting to RMB207.9 million incurred in the ongoing construction of San Ya Wan Phase 2, the Ying Li International Commercial Centre project and the Ying Li International Electrical and Hardware Centre; and iii) net interest and income tax paid of RMB61.2 million.

Net cash from financing activities of RMB422.8 million includes: (i) proceeds from loan drawdowns and bond issuance RMB845.7 million which was mainly used for repayment; ii) release of cash collaterals that were previously pledged to financial institutions amounting to RMB390.0 million; and iii) repayment of borrowings amounting to RMB813.0 million.

9 Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Barring any unforeseen circumstances, the Directors expect the Group to remain profitable in FY2016.

A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

According to Chongqing Statistics Bureau, Chongqing registered a GDP growth of 10.6% Y-o-Y in 1H2016 to RMB800.1 billion compared with the national average of 6.7%. The city is also ranked first in terms of GDP growth for the 10<sup>th</sup> consecutive quarter. In line with the city's stable economic growth, disposal income per capital rose by 8.8% Y-o-Y to RMB15,569 while total retail sales of consumer goods expanded by 12.9% Y-o-Y to RMB350.5 billion in 1H2016.

#### **Chongqing Office Market**

Three new office projects with a combined gross floor area (GFA) of 157,200 sqm were released in 1H2016. With an uptick in demand in 2Q2016, the net absorption was positive in 1H2016 at 100,000 sqm. Being the traditional CBD, Jiefangbei CBD remains the top choice for both upgraders and new entrants, in particular MNCs to settle in Chongqing. The average rental for offices (both grade A and non-grade A offices) in Jiefangbei continues to command a premium at RMB95.5 per sqm per month, as compared to the average office rental in Chongqing, which was at RMB84.2 per sqm per month.

(Sources: JLL Research, 1H16 Chongqing Property Market Overview; CBRE Research, Chongqing Property Market Overview Q2 2016)

#### **Chongqing Retail Market**

There was no new supply released in 2Q2016 and the only prime retail project completed in 1H2016 was Daping Starlight World with a GFA of 50,000 sqm. This has resulted in a 60.8% Y-o-Y decrease in new supply. However, on-going tenants adjustment process in some retail malls have resulted in overall vacancy rates to increase by 4.5 ppts Y-o-Y to 15.4% in 1H2016.

For the first half of the year, fashion and F&B sectors drove the demand in the retail scene. Popular mass market brands such as Sephora and Asics, and luxury brands such as Hermes and Versace continued to expand their presence in Chongqing's retail market. The retail market is also developing a greater emphasis on lifestyle, kids and entertainment themes to enrich retail experience for consumers in a bid to move away from the competition brought about by online shopping. Several children-focused stores including Lego exhibit center, Robot Kitty and mini indoor theme parks are also gaining traction in Chongqing's retail market in 2Q2016.

(Sources: JLL Research, 1H16 Chongqing Property Market Overview; CBRE Research, Chongqing Property Market Overview Q2 2016)

#### **Chongqing Residential Market**

Due to the prevailing high inventory level in Chongqing's residential market, some developers had delayed launching new projects while they pare down their existing stock. As a result, new supply in the premium segment decreased 40.9% Y-o-Y in 1H2016 to 2,600 units. Despite fewer new launches, take-up rate remained healthy in 1H2016 with an increase in the total units sold by 3.7% Y-o-Y to 5,600 units and the average selling price gained 1.7% Y-o-Y to RMB11,700 per sqm.

(Source: JLL Research, 2Q16 Chongqing Property Market Overview)

#### **Beijing Market**

Beijing's residential market was stable in 2Q2016. Although overall housing transaction volume slowed by 6.6% Y-o-Y, high-end residential market continues to thrive with transactions volume increased 81.0% and more than 100.0% Q-o-Q and Y-o-Y respectively. In 2Q2016, intense competition and large supply of high-end apartments restrained price growth to 0.6% Q-o-Q.

Leasing demand for serviced apartments was flat in 2Q2016 despite the arrival of more expatriates. Vacancy rate increased marginally by 0.2 ppts to 19.9% Q-o-Q. With the decline of total supply by 1.7% Q-o-Q and 10.5% Y-o-Y to 7,004 units in 2Q2016, average rental edged up 0.9% Q-o-Q and 1.2% Y-o-Y to RMB226.5 per sqm per month.

#### Outlook

Responding to the short-term oversupply concerns in the office, retail and residential markets, developers are likely to continue to slow down the pace of new projects launches into 2H2016. These oversupply could gradually be mitigated by the city's sustained economic growth which underpins the demand for office, retail and residential spaces. Furthermore, the anticipated arrival of more companies setting up their presence in Chongqing bolstered by the Singapore-Chongqing project could also provide impetus to drive demand further, particularly for the office and SOHO apartments. Tapping on that demand, the Group is currently developing its mixed-development (SOHO, office and retail) Ying Li International Commercial Centre with Phase 1 of the project on track for completion in late 2017. In addition, the Group's Ying Li International Hardware and Electrical Centre, constructed to amalgamate various distribution centres in Chongqing is currently proceeding according to plan.

Improved market sentiments and favourable policies are expected to continue to drive the demand for the residential market. The Group's residential development, Lion City Garden, has registered healthy pre-sales from its phased launches since late 2014. The Group has started to recognise sales with the handover of units since December 2015 and into 2016.

As for its retail malls, the Group continues to focus its efforts on repositioning two of its three malls- Ying LI IMIX Park Jiefangbei and Ying Li IMIX Park Daping, by adjusting their tenant mix and creating differential and experiential concepts to draw additional foot traffic.

Barring any unforeseen circumstances, including any adverse movements in the forex market or a further deterioration of China's macroeconomic environment, the Directors expect the Group's profit for the period to remain profitable in FY2016.
